All dates given are 'Week Commencing'. Participants will be notified by email once the EQA is available online and will be alerted prior to the closing date. The dates for the release of the ILRs and consequently for the appeals may be brought forward. Participants will be alerted once the ILRs and Summary Letters are available. The closing date for the appeals can be found in the Summary Letter.

* This year the Scheme Office will release the expected answers for each EQA on the static website a few weeks after the close of the EQA but before the release of the Draft ILR. Participants will be notified once the information is available online.
