(1) incorporating LPD/CLL/MM
 (2) incorporating AML/CML/ALL/MDS

Please note: Although the Scheme Office takes every care to ensure all participants are informed by email about the start/submission dates as well as changes to release dates, it is the participant's responsibility to check the EQA website for the correct dates. The closing date for the appeals can be found in the Summary Letter.

* The Scheme Office will release the expected answers (ISCN/FISH summary) for each EQA on the static website a few weeks after the close of the EQA but before the release of the Draft ILR. Participants will be notified once the information is available online.
